project 2: magazine layout 3

project number 2.3 continues a series of magazine layout problems. by design, you will have limited creative freedom so that you can focus on the layout problem.

design problem:

your are to create a magazine cover spread consisting of text and images.

parameters

- the 2 pages are 48p x 60p (8x10 inches)
- the margins are to be 3p0 all around
- you will need to create 3 columns with 1p gutters
- please use the supplied title image but adjust the color based on image
- the type for the headlines need to be a modern sans serif
- please find and adjust an image for a full–page rear cover ad

considerations

in this one we will be desiging a fairly simple cover. your task is to make adjustments based on the image you choose. we will also be learning how to resize and adjust im–ages. This can be used on the cover image as well as the rear ad.

due at the end of the day thursday 11/10
